SUMMARY

Computer Science and Engineering undergraduate at the National Institute of Technology, Goa with hands-on experience in full-stack development, machine learning, deep learning, and computer vision. Built a real-time bike taxi booking platform using React.js, Vite, Firebase, and Firestore, with strong foundations in DSA, OOP, DBMS, and problem solving.

TECHNICAL SKILLS

Programming Languages: C, C++, Python, Java
Web Development: React.js, Vite, Tailwind CSS
Cloud / Database: Firebase Authentication, Firestore, Firebase Hosting, MySQL
AI / ML: Pandas, NumPy, Scikit-learn, TensorFlow/Keras, OpenCV, Machine Learning

PROJECTS

Image Classification Using Deep Learning

Aug 2024 - Oct 2024

Deep Learning / Computer Vision

- Developed a multi-class image classification model using image preprocessing and Convolutional Neural Networks (CNNs).
- Implemented an end-to-end workflow for data preprocessing, model training, model evaluation, and image prediction.
- Technologies:** Python, TensorFlow/Keras, OpenCV, NumPy, CNN.

Intelligent Stock Market Prediction & Trading Analysis System

Jan 2025 - Apr 2025

Machine Learning / Financial Data Analysis

- Developed a machine learning-based stock market prediction system that analyzes historical market data and generates BUY/SELL signals using technical indicators.
- Designed an end-to-end trading analysis pipeline with automated Profit and Loss analysis, performance evaluation, and Equity Curve visualization.
- Evaluated trading performance using Sharpe Ratio, Win Rate, Profit Factor, and Maximum Drawdown.
- Technologies:** Python, Pandas, NumPy, Scikit-learn, Matplotlib.

EXPERIENCE

Voat Network - RIDEX Bike Taxi Booking Platform

June 2026

Full Stack Developer Intern

- Developed a full-stack bike taxi booking platform with Customer, Rider, and Admin web applications using React.js, Vite, Firebase Authentication, Firestore, and Tailwind CSS.
- Implemented real-time ride lifecycle management including ride booking, rider assignment, live ride status updates, wallet payments, rider approval workflow, and Firebase Hosting deployment.
- Built an Admin Dashboard for live ride monitoring, customer and rider management, revenue analytics, KPI tracking, activity timeline, and search functionality.

EDUCATION

National Institute of Technology, Goa

2023 - 2027

B.Tech in Computer Science and Engineering

Sri Chaitanya Junior College

2023

Class XII | 95.7%

Sri Chaitanya High School

2021

Class X | 99%

ACHIEVEMENTS & CERTIFICATIONS

- 1st Prize** in the national-level **Harit Manthan Hackathon** conducted by the Delhi Development Authority (DDA).
- 500+ LeetCode problems solved**, demonstrating strong Data Structures and Algorithms and problem-solving skills.

- **Deloitte Technology Job Simulation Certificate** (Jan 2026, Verification: z2eDmvDMnyqMmBhrC).
- **Deloitte Data Analytics Job Simulation Certificate** (Jan 2026, Verification: qhNs4A3LryTHbnrj4).
- Secured **District Rank 18** in NTSE Level-1 (2021).

ADDITIONAL ACTIVITIES

- **Piano Player (Keyboard)** - Passionate about learning and playing instrumental music.
- **Photography** - Enthusiastic about portrait and landscape photography with experience in composition and editing.
- **Continuous Learning** - Regularly build Python, AI/ML, and web development projects to strengthen technical skills.
